THE PRESERVATION OF PROPERTY. It has been correctly stated that the manage ment of any estate, be it either real or personal requires as much tact and ability as is required to accumulate it. TO-DAY'S NEWS AND INCIDENTS IN THE FEDERAL OFFICES.

EXECUTIVE MANSION.

Ex-Senator and non-Minister Blair is still in Washington anxiously awaiting the return of the President. It is expected that the ex-Senator will be consoled for the China incident by being accredited to the Empire of the Mikado.

STATE DEPARTMENT. The Italian Government has notified the Department of State that it has designated Cesare Poma, the Italian Vic Consul at Boston, to discharge the offices now performed at New Orleans by Consul Pasquale Corte.

TREASURY DEPARTMENT.

The First National Bank of Canonburg, Pa., has been authorized to begin business

Government receipts to-day from cus toms, \$478,587.13; from internal revenue, \$265,060,31; from miscellaneous sources, \$28,052,14; total, \$812,349,76. The Secretary of the Treasury has advised a New York correspondent that

cigarettes intended for use or as samples cannot be imported in a less quantity than 3,000 in a single package. The Government has decided to ask the Supreme Court to review the decision of the Circuit Court of New York as to the

giass imported for the use of the Convent of the Sacred Heart, Philadelphia. The special committee raised in the Treasury to investigate the matter of se curing new paper for the currency have about completed their report, although it has not been made public. It is thought that the recommendation will be to dis-continue the use of the silk thread paper now in use and which has been so suc-

essfully counterfeited. The action of the Comptroller of the urrency in appointing the Hon. R. M. Yardley as receiver of the Keystone Bank at Philadelphia has given great satisfac-tion in that city. Mr. Yardley will take charge of the bank on next Monday. The bond required of him is \$50.000. The Commonwealth Title Insurance and Trust company will make it.

Who Will Draw the Prizes?-The Sec retary of the Treasury has under advise ment a plan to carry out the provision of section 12 of the act authorizing the World's Fair Exhibition, the same having world's rair Exhibition, the same having relation to the introduction of foreign goods free of duty when the same are in-tended for exhibit. An appropriation of \$20,000 was youted to make this part of the Exposition scheme feasible and it is prob-able that a number of special agents will be appointed to proceed to Europe and be appointed to proceed to Europe and further this part of the Exposition work. Who these lucky individuals will be remains to be seen. Their names may be announced to-day or to-morrow.

A SUPPLEMENTARY CIRCULAR. - The Treesury Department has issued a supplementary circular, modifying and rein forcing the Nebecker proclamation of May I, in reference to the distribution of fractional coin. In this new paper notice is made that the original circular does not change the negotiation for ob-taining fractional coin, except to limit the deposit therefor to \$200, instead of \$500 and that banks located in sub-treasury cities must obtain their fractional coin from the branch office, rather than send here for it. The further information is ventured that the supply of dimes is short, but that such banks as are in pressing need of small change can be plied with any quantity of nickels.

A BRAND-NEW TARREY DODGE, - The Treasury Department officials have been made aware of a shrewd scheme on the part of Cuban cigarmakers to beat the Tariff bill. Section 246, schedule F. of the McKinley bill raises the import duty on imported cigars from \$2,50 to \$1.50 per pound. As soon as the act went into effect the Cuban makers commenced wrapping their cigars lighter so that a package of 1,000 of the lightly wrapped smokers would weigh less in reality than 1,000 cigars used to weigh under the terms of the old act. By this means the import duty was kept down to the ligures prescribed in the old tariff law and the consumers and the Government were consumers and the Government were both leeched. A special agent, Mr. John W. Link, has been detailed to investigate

his new tariff dodge.

CONFERENCES OF APPEAUSERS. Secretary Foster has directed that quarterly cor ferences of local appraisers of customs be ontinued during the next fiscal year in New York, the time of meeting to be the third Tuesday of July and the second Tuesdays of October, 1891, January and April, 1892. The conference in July will be attended by the appraisers at New York, Boston, Philadelphia, Baltimore, Chicago, New Orleans and Cleveland; the October conference by the appraisers of the first three cities and St. Louis, Detroit Cincinnati and San Francisco; the January conference by the appraisers of the first three cities and Portland, Me., Buffalo, Chicago and Baltimore, the April conference by the appraisers of the dist three cities and San Francisco, Detroit, St. Lowis and Cleveland. hree cities and San F st. FOR HER TWO CHILDREN, WHO ARE NOW DETAINED IN AN ASYLUM.

The Asylum Anthorities Say the Mother Wants Possession of the Children to Obtain Their Inheritance Which Would Otherwise Revert to Them Upon Attaining Their Majority.

Mrs. Susannah Baker, at whose instance he writ of habeas corpus was issued yeserday for possession of her children, took a seat in the Court in General Term this morning at 10 o'clock. She was accompanied by her niece, who was dressed in leep mourning, and her solicitor, J. Preson Williams. Mrs. Baker glanced very frequently at the door of the court room in anticipation of an opportunity to see and caress her son and daughter, who had, as she claimed, been separated from her for some time. She was, however, doomed to disappointment, for when Judge James came into Chambers the writ of habeas corpus ordered issued by him, command-ing the presence of Mrs. A. D. Lee in Court with the two children, bore the following

"Mrs. Lee not to be found. Out of city,

Mrs. Baker left the City Hall in company with her solicitor, but she was quite demonstrative and declared most positively that she would not be trifted with in this manner.

While they were satisfied that Mrs. Lee was the manager of the institu-tion, they have been apprised that there are others who are responsible and who have the custody of the children. At the asylum it was stated that, when he children were placed there two years ago, the mother complied with all the egulations and executed a formal relinregulations and executed a formal rein-quishment of her rights to their control, as is usual in cases where children are placed in such institutions, and gave the asylum authorities full control of them until they attained their majority.

In this case, however, the board was not satisfied that the mother was able to provide for her children and have refused to return them to her. It was also stated at the asylum to-day that the object of the mother to regain control of her children was simply to enable her to use the money left them by their grandmother. If they remain in the asylum this money will not be touched, but will be turned over to them when they attain their majority, with the accrued interest. The acting superintendent also stated that Mrs. Baker could see her children upon the regular visiting days, as she had been in the habit of doing, and at such other times as the board deemed proper, but that the children would not be surrendered to her unless the court so di-It is not known when Mrs. Lee

The Russian Jews Said to Regard the Attempt Upon the Life of the Czarewitch as a Stroke of Divine Vengeance Leveled at Their Cruet Perse-

entors. LONDON, May 13.—A Vienna dispatch says that some of the Hebrews in that city are not slow to evince their satis action at the distress of the Russian Imperial family owing to the attack on the Czarewitch, and averthat it is a just retribution for the frightful calamities inflicted on the Hebrews by the Czar's government. In Warsaw the police have arrested several men who were distributing the news in an exaggerated form to the effect that the Czarewitch was dead. The Austrian Emperor has telegraphed his condolence to the Czar, with an anxious inquiry as to the latest news of the Czarewitch's condition. The Austrian authorities in Galicia have been ordered to repress sternly any exhibition of satisfaction with

the occurrence, but groups of people in Cracow lined the streets last night, talk-ing over the event with evident pleasure. Cracow is full of Hebrew refugees and there was no concealment of delight at the blow which had fallen on the house-hold of the autocrat. This feeling is not so strange, when it is remembered that according to the latest advices the roads from Mescow to the frontier and the pale were strewn in some places last week with the remains of the aged and of infants who had perished from hardship.

LAGOR TROUBLES FEARED.

Great excitement exists in Brussels. The workingmen are determined to hold their parade in defiance of the city authorities and the burgomaster is equally stubborn. The troops are in readiness to suppress any outbreak, the gendarmes having spent all night under arms. The working people of Ghent are out in force to day and similar demonstrations are reported in various cities of Belgium. The troops on the Belgian frontier, adjoining France, have captured a large quantity of circulars, printed, it is thought, in England. These circulars appeal to the people to strike a blow for liberty and not be any longer the slaves of a monarchy.
